Hello Rooms [101.com](https://rooms101.com),

I would like to extend our reservation for another date. I know this is very short notice but part of my party arriving to the Resort today most notably my son was critically injured last night and my wife has gone to be by his side through his surgery. This happened last night after 10pm EST and he will shortly be going into surgery for his injuries. Again, we are not cancelling the reservation, we just need to move it out to a later date.

Thank you for your understanding

Sidney Johnson
