Capital Health Regional Medical Center.pdf (~2.0 MB)

My name is Asha Doogah and I have reservations at the World Quest Hotel in Florida, for April 9-12, 2023. I was participating in a tour package. Unfortunately my Mother had a stroke and I am her primary caretaker, and she lives with me. She's still currently in the hospital, there are some complications. My Mother has a permanent tracheostomy and cannot speak. I am her power of attorney over her medical.

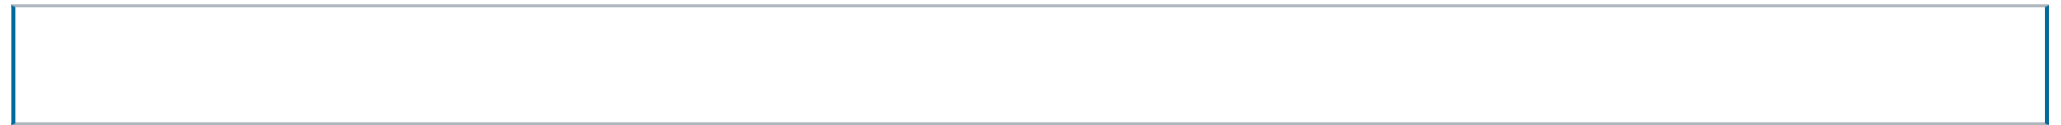

I need to please cancel this reservation and request a refund. I have attached her admission paperwork, and since then other things have happened, if an even more updated document is needed please let me know.

This is my email address and I can also be contacted at 973-801-1836. My apologies for any inconvenience. We wanted and needed this trip desperately. Her being trached and with COVID, my son and I have not been anywhere.

Please let me know if you need anything else.

Thank you,  
Asha Doogah.
